**Sprint Number:** 1

1. What were the main lessons your team learned in this sprint?

Mahirap matuto ng android studio. Marami kailangan i-install, Malaki mga files, kailangan ng decent internet connection all throughout. Sanayan lang sa paggamit ng android studios.

So many things were needed to be able to sync the contacts of the device to the application.

2. Describe one example of what went right in this sprint.

Making the apk was easy because the functionality was built in android studios. Syncing the calendar apparently only needed a button to do in android studios.

3. Describe one example of what went wrong in this sprint.

Trying to install android studios was horrible!

4. What will you do differently on the next sprint based on your experience working on this current sprint?

Try very hard not to cram

Learn about android studio's quirks. Learn the functionalities of android studio better.
